VANSH PANDYA

UNITY GAME DEVELOPER

Mumbai 400091, India | vanshpandya1417@gmail.com | 9321706193 | LinkedIn | GitHub | Portfolio

PROFILE

Unity Game Developer with hands-on experience in gameplay programming, AR/XR development, AI systems, and real-time interactive applications. Experienced with Unity and C#, gameplay mechanics, scalable game systems, debugging, optimization, and feature integration across professional and personal projects.

PROFESSIONAL EXPERIENCE

XR/AR Unity Developer Intern, Valkyra Technologies **Apr 2026 to Present**

Remote, India

Worked on an AR product using Unity and C#, contributing to AR feature development, debugging, and integration. Worked with AR Foundation, real-time camera/frame processing, API integration, and Android deployment while collaborating with a US-based team.

Unity Developer Intern, Vajradhaara Studios LLP **Jan 2026 to July 2026**

Remote, India

Worked on a 3D Snake game using Unity and C#, implementing core gameplay mechanics, scalable game systems, and feature integration. Contributed to debugging, performance optimization, and smooth gameplay while collaborating with designers, artists, and developers.

Unity Game Developer / Gameplay Programmer, Personal Project **Dec 2025 to Feb 2026**

Remote

Built a fast-paced 2D top-down action game in Unity and C#. Implemented a 360° weapon system, responsive movement, enemy AI with horde spawning, combat mechanics, progression systems, and JSON save/load.

Unity Game Developer / Multiplayer Programmer, Group Project **Aug 2025 to Sep 2025**

Remote

Developed a mobile 2-player game with multiple mini-games in Unity and C#. Implemented local multiplayer, touch controls, scoring, game state management, and optimized UI and gameplay for performance.

EDUCATION

SVKM's Usha Pravin Gandhi College of Arts, Science and Commerce **2023 to 2026**
